

Fee structure of the Registration Services on the Intergis

1 April 2020 – 31 March 2021

1. BASIC SERVICES

- a. Capturing of birth notifications.
- b. Capturing of inspection/registration results.
- c. Cancellations, transfers and reinstatements.
- d. An annual per capita list as on 1 April with all the animals in the possession of the member (the annual per capita fee will also be levied on the number of animals on this per capita list).
- e. The Intergis Interface is also available to users for accessing their information. Individual members will have access to their own information and a breeders' society will have access to the information of all its members from which enquiries and reports can be generated.

Capturing of data on the INTERGIS

The Data can be submitted directly to the INTERGIS at no additional cost in one of the following ways:

- Electronic files can be submitted through any software (e.g. Beefpro), provided the file format is compatible with the INTERGIS.
- Directly on the system through the INTERGIS Interface (on arrangement).
- Via a paper option that should be send to the ARC Data Editing section in Bloemfontein.

(Breeders from abroad should contact the ARC for fees please)

Enquiries: Mr. Corrie van Zyl

Tel: 012 427 9902

Email: vanzylc@arc.agric.za

Please note:

The ARC can issue registration certificates on behalf of a Registering Authority. If you want to make use of the pedigree recording services of the ARC it is recommended that your Society apply to the Registrar of Animal Improvement to become a Registering Authority and the ARC will assist you in this regard. Alternatively, you can negotiate with another existing Registering Authority so that the ARC can issue the registration certificates on behalf of that Registering Authority for your breed.

About the Agricultural Research Council

The Agricultural Research Council, a schedule 3A public entity, established in 1990 through the Agricultural Research Act 86 of 1990 (as amended by Act 27 of 2001) is a premier science institution that conducts research with partners, develops human capital and fosters innovation in support of the agricultural sector. Its core mandate as defined in the Act is to act as the principal agricultural research institution in South Africa so as to conduct research, drive research and development, drive technology development and the transfer (dissemination) of information in order to: Promote agriculture and related industries; Contribute to a better quality of life; Facilitate/ensure natural resource conservation; and Alleviate poverty. It provides diagnostic, laboratory, analytical, agricultural engineering services, post-harvest technology development, agrochemical evaluation, consultation and advisory services, food processing technology services as well as various surveys and training interventions. For more information, visit the ARC website at www.arc.agric.za
