

DNA ANALYSIS		
Fingerprinting of plant material	1st sample using (RAPD, ISSR)	R 2 835,00
	Subsequent samples	R 815,00
	Microsatellite analysis (per sample)	R 1 315,00
PLANT PATHOLOGY		
Fungal Pathogens	Visual identification (no report)	No cost
	Visual identification (with Report)	R 320,00
	Isolation from plant Material	R 900,00
	Isolation from Soil	Price on Request
Bacterial Pathogens	PCR Analysis	R 785,00
Phytoplasm	PCR Analysis	R 815,00
ENTOMOLOGY / NEMATOLOGY		
Nematodes	Extraction, identification and counting of plant-parasitic nematodes up to genus level from roots & plant material	R 160,00
	Extraction, identification and counting of plant-parasitic nematodes up to genus level from soil	R 215,00
	Extraction, identification and counting of plant-parasitic nematodes up to genus level from roots & plant material and soil	R 370,00
	Species-specific PCR for the identification of plant-parasitic nematodes up to species level	R 585,00
Bud Analysis	Bud analysis for bud mites (cost per bunch of 12 canes)	R 230,00
	Bud analysis for fertility, including bud mites (cost per bud)	R 6,95
Mealybug Trap counts	(cost per trap)	R 30,00
Insect Identification	Visual identification (no report)	No cost
	Visual identification (with report)	R 320,00
	Red spider mite analysis (per sample, max. 10 plants per sample)	R 270,00
	Cyclamen mite analysis (per sample, max. 10 plants per sample)	R 220,00

	Taxonomic ID up to species level (ACFR)	Price on Request
Irradiation of organic material	Irradiation of organic samples using the ARC Cobalt 60 source	Price on Request
SOIL ENZYME ACTIVITY (soil quality/fertility)		
	β -Glucosidase	R 227,00
	Acid-Phosphatase	R 227,00
	Alkaline-Phosphatase (on request)	R 227,00
	Urease	R 227,00
	Soil Alteration Index 3 (AI3)	R 567,00
MICROBIAL ANALYSES		
Fingerprinting of yeast	1 Sample	R 4 195,00
	2 Samples	R 2 100,00
	3 Samples	R 1 420,00
	4-12 Samples	R 1 100,00
	Urgent samples/ yeast	R 6 975,00
Microbial Analyses	Total yeast and bacteria: Bottled wine (two membrane filter method)	R 340,00
	Total yeast cell counts: must; cloudy juice; active dried wine yeast	R 480,00
	Total bacteria cell counts: must; wine undergoing MLF; MLB cultures	R 480,00
	Total yeast counts: Microscopic (methylene blue staining)	R 175,00
	Malo-lactic fermentation status (paper chromatography)	R 95,00
	Microscopic evaluation	R 45,00
	Yeast Handling fee	R 625,00
	Yeast Identification (ID 32C)	R 800,00
	Mass Loss (1-10 Fermentations)	R 4 250,00
	Chemical Spray Wines	R 4 140,00
CELLAR SERVICES		
	Small-scale wine making (20 litres)	R 1 902,86
	Grape Ripeness Analysis	R 104.37

ANALYTICAL FACILITY (NEW)		
Alpha Wine Analyser (FT-IR Analysis)	Analysis per sample (Must, Must under fermentation, Finished wine) (ATR (Attenuated Total Reflection) FT-IR) Acetic Acid, Alcohol, Density, Fructose, Glucose, Glycerol, Lactic Acid, Malic Acid, pH, Tartaric Acid, Total Acid, Total Sugar	R 130,00 per sample
HPLC Analysis	Analysis per sample (Polyphenolic compounds)	R 1 020,00
Other		Price on request
SEEDS		
Honeybush Seeds	C. subternata Seed (per 100g) VAT exempted for farmers	R 525,00
	Treatment with sulphuric acid (500g and less = R100, 500g - 1 kg = R180 ,More than1 kg = R230	R 178.08
VENUE HIRING		
Infruitec		
Olive Grove with Heuningbos	200 + tea room	R 1 575,00
Carmine with Pioneer	25 + tea room	R 1 260,00
Flamingo	10	R 682.50
Heritage Garden	Max 30 (photos only, max 2 hours)	R 525,00
Nietvoorbij		
Chardonnay	15	R 682.50
Dauphine	20	R 682.50
La Rochelle	10	R 682.50
Pinotage	150 + tea room	R 1 575,00
Lapa	60 (use of venue, kitchen and braai area)	R 3 675,00
Commercial Cellar	100	R 5 250,00
Bien Donne		
Bien Donne - Research building - Meeting room		R 525,00

BOOK SALES, CD'S AND BULLETINS		
Fertilisation of vineyards	R	62.37
Grondkundige aspekte vir optimum produksie en druifkwaliteit in die benede-Oranjerivier	R	308.49
Grondkundige aspekte vir optimum produksie en vrugkwaliteit in die Koue Bokkeveld	R	308.49
Grondkundige aspekte vir optimum produksie en vrugkwaliteit in die Breëriviervallei	R	308.49
Grondkundige aspekte vir optimum produksie van wynkwaliteit in die Breëriviervallei	R	308.49
Grondkundige aspekte vir optimum tafeldruif kwaliteit in die Hex en Bergrivier	R	308.70
Grondkundige aspekte vir optimum wynkwaliteit in die Kusstreek	R	308.70
Grondkundige aspekte vir optimum wynkwaliteit in die Overberg	R	308.70
Olive production in South Africa. A Handbook for Olive Growers	R	630,00
Integrated Management of Post-harvest Quality	R	282,15
Nuwe Na – Oes : Manual for the identification of post-harvest disorders of pome and stone fruit	R	209,00
Katalogus	R	60,50
A Guide to use Registered Fungis and pesticides	R	490,47
Uitkenning en beheer van belangrike onkruid in die wingerde van Suid-Afrika/v Identification and chemical control of important weeds in South African vineyards	R	422.10
Wingerdbemesting	R	63,00
Modern Olive Production	R	399,00
CD'S		
Soil tillage in vineyards / wingerd bewerking	R	141.75
Soil preparation for viticulture / voorbereiding	R	141.75
Bulletins		
Grond/ Soil	R	21,00
Bemesting/ Fertilization	R	21,00

Besproeing/ Irrigation	R	21,00
Snoei en Oplei/ Prunning and Training	R	21,00
Siektes en Plae / Pests and Diseases	R	21,00
Droging en Koelopberging/ Curing and Cold Storage	R	21,00
Aarbeie / Strawberries	R	21,00
Appels/ Apples	R	21,00
Appelkoos/ Apricots	R	21,00
Bessies/ Berries	R	21,00
Blueberry growing in South Africa	R	115.50
Raspberry cultivation in South Africa	R	115.50
Growing of blackberries in South Africa	R	115.5
Nektarien/ Nectarines	R	21,00
Neute/ Nuts	R	21,00
Pere/ Pears	R	21,00
Perske/ Peaches	R	21,00
Pruime en Pruimedante/ Plums and Prunes	R	21,00
Other	R	21,00
CONSULTATION		
Km-tariff (price per km)	R	6,50
Km-tariff (price per km) Truck	R	11.88
Travel time rates (half the price per consultation / h)	R	300,00
Consultation - time on farm (price per h)	R	600,00
