

Invitation

ARC PDP Alumni Programme

The ARC launched its flagship programme to give study and training opportunities to upcoming South African scientists and researchers from all walks of life. This programme was launched in 1996 and has existed for twenty eight (28) years.

Some beneficiaries were appointed to various positions in ARC and others in the industry. In a quest to keep in touch with former and current students.

In a quest to keep the former participants engaged and connected with the latest development in Agricultural Research, the ARC is launching its first-ever "ARC PDP Alumni Programme" for all its former students and participants, dating way back to 1996.

To register, please click the link below; even if you are not going to attend, we urge you to update your details so that we can stay connected with you for any research opportunities we may have.
