

Discover the ARC at NAMPO Bothaville from May 12th to 15th and explore the pioneering work of the Agricultural Research Council (ARC)

Dr. Litha Magingxa, ARC President and CEO

Established Excellence: Since 1992, the ARC has been at the forefront of agricultural innovation in South Africa. Our eleven campuses, built upon the legacy of the former Department of Agriculture, continue to drive progress in the sector.

Innovative Initiatives: Experience firsthand our latest research and development initiatives. From groundbreaking technologies to sustainable practices, the ARC is shaping the future of agriculture.

Meet the Experts: Engage with our specialised researchers across various fields. Their expertise and dedication are driving agricultural advancement nationwide.

Connect with Us: Interact with our executives, who are committed to upholding the ARC's mission and vision. Discover how we're making a difference in agriculture.

Visit Our Venue Stand: Don't miss our stand at Total Energies Hall, Stand 1-12 Nampo Park and witness live demonstrations, connect with our team, and explore the future of farming.

*Join us at NAMPO - we are looking forward to hosting you
and strengthening our Partnership!*
