NEW NIETVOORBIJ WINES IN STOCK!!

Nietvoorbij, the internationally acclaimed research farm of the Agricultural Research Council (ARC), has released two new specially bottled wines in celebration of 21 years since the establishment of the ARC.

ARC Infruitec-Nietvoorbij, housed at Nietvoorbij in Stellenbosch, is a member of the Horticulture Cluster of the ARC. The Institute conducts research, development and technology transfer on deciduous fruit, viticulture, alternative crops and indigenous herbal teas.

Nietvoorbij, synonymous with quality research in enology and viticulture, annually produces 1000 different wines (10 to 20 litres) for research purposes in the modern experimental cellar. Next door, in the older thatched roof cellar, traditional and modern winemaking techniques are combined to create unique wines for your enjoyment.

Savour the chilly winter nights as you sip on a 2010 Cape Ruby boasting luscious berry aromas, ripe plum and dark chocolate or welcome in the lovely spring days enjoying a 2013 Pinotage Rosé with hints of raspberry and candyfloss!

These celebratory wines (Cape Ruby – R55 & Pinotage Rosé – R40) are available at our wine sales on the Nietvoorbij Campus - R44 Adam Tas / Klappmuts Road, Stellenbosch.

For more information, or to place an order, contact Nietvoorbij Wines Sales on (021) 809 3084 / winesales@arc.agric.za.
