CONTENTS

1.	Canning	4
2.	Drying of tomatoes	4
3.	Economic potential of fig production with emphasis on resource-limited farmers in South Africa	5
4.	Factors affecting water use	5
5.	Fertilise for quality fruit	6
6.	Fruit flies, their eradication and benefits for the community	6
7.	Fruit processing training	7
8.	Jam making	7
9.	Monitoring and controlling of pests	8
10.	Nursery practices	8
11.	Sun-drying of figs	9
12.	The role of the demonstration plots in training	9

CANNING

DRYING OF TOMATOES

ECONOMIC POTENTIAL OF FIG PRODUCTION WITH EMPHASIS ON RESOURCE-LIMITED FARMERS IN SOUTH AFRICA

FACTORS AFFECTING WATER USE

FERTILISE FOR QUALITY FRUIT

FRUIT FLIES, THEIR ERADICATION AND BENEFITS FOR THE COMMUNITY

Fruit flies, their eradication, and benefits for the community

WHAT IS FRUIT FLIES? TO ERADICATE THEM

It is the tiny and often of millions of fruit flies that are the target area. The fruit flies cause more than 10% of the losses of the fruit, but this number can be reduced to near zero by using the IZ program. It is especially useful for a number of fruit in many different countries, especially those that are in the tropics and subtropics.

THE BENEFITS FOR A HEALTHY FUTURE PRODUCTION

- The IZ program will be free for all and it will be the most effective.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
- It will reduce the losses of the fruit, but this number can be reduced to near zero by using the IZ program.
