

Think SADC – e-Learning program for Agricultural Management of natural resources via climate-smart agricultural technologies in the context of climate change: *TEAM3C project*

Stakeholder Engagement Workshop

30 May 2023

QUESTIONS ON E-LEARNING FOR SADC
Presenter: Bornwell Mupeyo

1. How significant do you feel e-learning is in the SADC region?

*Multiple choice scale: insignificant, fairly significant, significant, very significant, extremely significant

2. Should e-learning accompany a lesson or independent of a lesson?

3. Which among familiar tools of e-learning is/are more appropriate for effective teaching?

4. Which among the e-learning tools would you suggest to be more effective in delivery of practical lessons (in achieving psychomotor objectives), e.g. demonstration on tree planting, animal casting, etc?

5. Which among the tools will lead to more people accessing the learning simultaneously in the SADC region?

THANK YOU FOR PARTICIPATING IN THIS QUESTION
ANSWERING SESSION.
