

RESIDUE ACCURATE

Residue Laboratory is specialised in monitoring and control programme for drug residues and toxins in food and feed. We partner the food and feed industry to foster quality in their products for the local and international markets. Our analytical services are based on European Union and Codex Alimentarius regulations. Our sample analytical services focus on accurate testing and rapid turn-around time allowing the food industry to make timely decisions.

Antimicrobial residues
screening by Inhibition
tests and ELISA.

Chromatographic analysis with
HPLC-FLD, HPLC-DAD.

Confirmatory Residue Analysis
by LC-MS/MS and GC-
MS/MS

MILK AND EGG INDUSTRY

- Antimicrobials
- Tetracyclines
 - B-Lactams
 - Macrolides
 - Aminoglycosides
 - Quinolones
 - Aflatoxin M₁
 - Sulphonamides

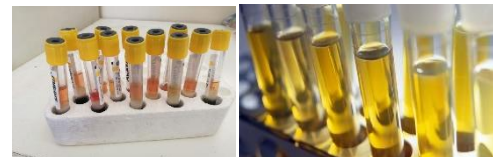

MEAT INDUSTRY

- Antibiotics
- Hormones
- Pesticides
- Tranquilisers
- Coccidiostats
- Mycotoxin (metabolites)

FEED INDUSTRY

- Mycotoxins
- Hormones/growth stimulants
- Antimicrobials

SERUM/URINE

- Stilbenes
- Beta-Agonists
- Zeranol
- Steroids
- Zilpaterol
